Project Overview

Project Name: Community Revitalization

| Project Identification Number | 10040 |
|--|---|
| Project Expenditure Category | 2-Negative Economic Impacts |
| Project Expenditure Subcategory | 2.23-Strong Healthy Communities: Demolition and Rehabilitation of Properties |
| Status To Completion | Completed less than 50% |
| Adopted Budget | \$20,000,000.00 |
| Program Income Earned | \$0.00 |
| Program Income Expended | \$0.00 |
| Total Cumulative Obligations | \$20,000,000.00 |
| Total Cumulative Expenditures | \$6,997,899.37 |
| Current Period Obligations | \$0.00 |
| Current Period Expenditures | (\$2,100.63) |
| Project Description | "The Community Revitalization Program will distribute grants through a Request for Proposal Process (open to for-profit/nonprofit developers, municipalities, owners of existing affordable housing developments, and Public Housing Authorities) to finance the acquisition and redevelopment of blighted properties to increase the development of affordable housing including projects that include commercial or community spaces that are ancillary to the housing and serve residents of affordable housing within Qualified Census TractsThe structure of this program would allow health centers, educational facilities and employment training to be located where most needed and create opportunities for private investment into economically challenged communities. The maximum grant is \$2 million, and each will have a term of affordability of at least 30 years. If a CRP grant finances the development of affordable housing Tax Credit and or Home Investment Partnership (HOME) eligibility requirements." |
| Does this project include a capital expenditure? | Yes |
| What is the Total expected capital expenditure, including pre-development costs, if applicable | \$19,494,000.00 |
| Type of capital expenditures, based on the following enumerated uses | Affordable housing, supportive housing, or recovery housing |
| Capital Expenditure Justification | The project will finance the redevelopment of blighted properties into affordable housing and mixed use developments within QCTs. |

Project Name: Homelessness Infrastructure

| Project Identification Number | 10037 |
|-------------------------------|-----------------------------|
| Project Expenditure Category | 2-Negative Economic Impacts |
| | |

| Project Expenditure Subcategory | 2.16-Long-Term Housing Security: Services for Unhoused persons |
|--|--|
| Status To Completion | Completed 50% or more |
| Adopted Budget | \$5,000,000.00 |
| Program Income Earned | \$0.00 |
| Program Income Expended | \$0.00 |
| Total Cumulative Obligations | \$4,936,890.46 |
| Total Cumulative Expenditures | \$4,772,458.53 |
| Current Period Obligations | \$0.00 |
| Current Period Expenditures | \$539,248.68 |
| Project Description | "The Office of Housing and Community Development (OHCD) will use these funds to expand the capacity of the shelter system to better respond to the crisis of homelessness. The project will add both temporary and permanent shelter beds to the current support system. Beds will be added by contracting with specific providers and targeting key constituencies of the homeless population including families, couples, chronically homeless individuals, and victims of domestic violence. Providers will use funds to either reconfigure or expand their existing shelter space to serve additional people by adding beds, or to rent hotel/motel rooms and other suitable facilities to house people who would otherwise be unhoused. A portion of the shelter bed additions will be used for only the winter period to safely house homeless persons during the inclement months. Other shelter expansions or changes will be permanent and will provide a more long-term solution to addressing the current system-wide shortage of beds. The overarching goal of this project is to expand the state's capacity to provide temporary housing to individuals while in the process of finding more permanent housing arrangements." |
| Does this project include a capital expenditure? | Yes |
| What is the Total expected capital expenditure, including pre-development costs, if applicable | \$600,000.00 |
| Type of capital expenditures, based on the following enumerated uses | Other (please specify) |
| Capital Expenditure Justification | "As previously stated, Rhode Island is experiencing an increase in homeless and unsheltered persons. The State's current shelter system cannot keep up with the need for additional beds. As a result, approximately 717 individudal and families are waiting for space in a shelter. Without capital expenditure, local organizations and agencies cannot use their existing resources to produce additional beds." |

Project Name: Affordable Housing Predevelopment

| Project Identification Number | 10021 |
|---------------------------------|---|
| Project Expenditure Category | 2-Negative Economic Impacts |
| Project Expenditure Subcategory | 2.15-Long-Term Housing Security: Affordable Housing |
| Status To Completion | Completed 50% or more |

| Adopted Budget | \$10,000,000.00 |
|--|---|
| Program Income Earned | \$0.00 |
| Program Income Expended | \$0.00 |
| Total Cumulative Obligations | \$10,000,000.00 |
| Total Cumulative Expenditures | \$9,999,999.65 |
| Current Period Obligations | \$0.00 |
| Current Period Expenditures | \$3,749,999.66 |
| Project Description | "RIHousing, the subrecipient for the Affordable Housing Predevelopment project, will provide zero % interest loans to developers to finance the predevelopment costs of potential affordable housing projects. Predevelopment costs include architectural and engineering studies, environmental assessments, filing fees and/or costs and expenses incurred in obtaining permits and approvals and applying for public or private grants, site control costs such as deposits under real estate purchase and sale agreements or to acquire options or extensions of options or purchase and sale agreements on real estate, and other predevelopment activities approved by the subrecipient. RIHousing will fund 40 or more projects at a maximum cost of \$250,000 per project. Projects will include deed restrictions that specify that units must be at or below at 80% Average Median Income (AMI) for at least thirty years." |
| Does this project include a capital expenditure? | Yes |
| What is the Total expected capital expenditure, including pre-development costs, if applicable | \$9,747,000.00 |
| Type of capital expenditures, based on the following enumerated uses | Affordable housing, supportive housing, or recovery housing |
| Capital Expenditure Justification | "Rhode Island consistently ranks among the lowest nationally in per-capita building permit activity, and the state has ranked far behind its other New England neighbors in the investment of state resources for affordable housing. The result is that Rhode Island is currently experiencing a critical shortage of housing at all price points, but particularly for lower-income households. During COVID, housing prices and rents have increased significantly and both the rental vacancy rate and inventory of homes for sale are at an historically low level. Rent for a market-rate two-bedroom apartment is currently about \$1700, up about 8.5% from 2019, when it was \$1575. Current rental vacancy (the number of units for rent that are not occupied) is 2.8%, down from 3.7% at this point last year and 6.2% in 2019. A normal vacancy rate where you would not expect upward or downward pressure on prices is 6-7%." |

| Total Cumulative Expenditures | \$29,999,999.97 |
| Current Period Obligations | \$0.00 |
| Current Period Expenditures | \$0.00 |
| Project Description | The Rhode Island General Assembly appropriated \$30 million for distribution to Rhode Island nursing facilities to provide for the support of direct care workers at these facilities. The \$30 million is allocated across the state's 75 remaining nursing homes that are in operation in 2022 based on the number of Medicaid bed days a facility had out of the total number of Medicaid bed days for all nursing facilities as indicated each nursing facility's 2020 cost report. Nursing facilities that filed a 2020 cost report but were no longer in business in 2022 and nursing facilities that do not accept Medicaid were excluded from the distribution. Nursing facilities that are eligible for an allocation of the \$30 million must dedicate at least 80% of the monies received to direct care workers. The definition of direct care workers that is used is from R.I. Gen. Laws Section 40-8-19. |

| Program Income Earned | \$0.00 |
|--|---|
| Program Income Expended | \$0.00 |
| Total Cumulative Obligations | \$1,536,984.17 |
| Total Cumulative Expenditures | \$1,447,946.98 |
| Current Period Obligations | \$355,077.92 |
| Current Period Expenditures | \$355,164.52 |
| Project Description | "Through the auto-enrollment program, HealthSource RI (HSRI) will create a responsible pathway to retaining health coverage for vulnerable Rhode Islanders transitioned off of Medicaid once the Public Health Emergency (PHE) expires. The program consists of two components: the first component is the auto-enrollment of individuals and families who are being terminated from Medicaid and have household income at or below 200% FPL into a Qualified Health Plan (QHP) offered through HSRI and effectuating that coverage on their behalf by paying the first two month's premium. Additionally, if these enrollees select a dental plan, that plans premium may also be eligible for payment of two months of premium payments under the program. The second component is an additional premium assistance offering for individuals and families with household income less than 250% FPL, who are not eligible for auto-enrollment but are transitioning off Medicaid and into QHP by making an active selection for a medical and/or dental plan. The program would make payments for two months of premium for this group. HSRI aims to serve approximately 13,000 individuals at or below 250% FPL, maintain the state's record insured rate despite the historic Medicaid transition issue, and cultivate attrition of program participants over the life of the project." |

| Program Income Expended | \$0.00 |
| Total Cumulative Obligations | \$1,000,000.00 |
| Total Cumulative Expenditures | \$989,270.97 |
| Current Period Obligations | \$0.00 |
| Current Period Expenditures | \$239,505.33 |
| Project Description | "The childcare workforce registry project creates and implements a workforce registry of all employees of licensed child care providers in the state and integrates it as part of an Early Childhood data system. Early childcare educators will complete profiles, and once all educators are in the system, Rhode Island will be able to access a comprehensive data base to inform decision making. The state will work with a contracted vendor to design the childcare workforce registry and develop a cloud-based platform to house the registry. Promoting workforce participation among early educators will require significant and ongoing outreach to licensed programs who will act as the liaisons to their educators. The Department of Human Services (DHS) will use the data gathered from the Child Care Retention Bonuses program (10001) to input current educator profile data" |

| Total Cumulative Expenditures | \$300,000.00 |
| Current Period Obligations | \$0.00 |
| Current Period Expenditures | \$0.00 |
| Project Description | This work is pursuant to a \$300,000 allocation of state funds to Roger Williams University School of Law to work with Rhode Island Commerce Corporation (RICC) to enhance the growth of minority business enterprises, as defined in the FY23 budget act. RICC anticipates that the law school's work pursuant to this appropriation will begin by quarter 3 of FY23, and continue through the end of the state's 2023 fiscal year on June 30, 2023. The proposed metrics fall into three primary categories: Publications and Programs, Outreach and Networking, and Client Services. Client Services will fall into several categories: prospective client interviews, client onboarding meetings, business registrations, internal governance and operating document review and preparation, contract law guidance, regulatory law guidance, employment law guidance, trade secret and trademark law guidance, trademark registrations, and translation services. By the end of the program RICC plans to have assisted 30 current or prospective minority-owned small businesses, with at least 20 in existence by the end of June 2023. |

| Total Cumulative Expenditures | \$1,665,499.65 |
| Current Period Obligations | \$0.00 |
| Current Period Expenditures | \$472.65 |
| Project Description | Open Door Health (ODH), a program of the Rhode Island Public Health Institute (RIPHI), is a not-for-profit clinic that provides primary and sexual health services to Rhode Island's diverse community, with a focus on LGBTQ populations. The Rhode Island Department of Health (RIDOH) will use this project's funding to provide a grant to ODH to acquire a building in order to expand its physical capacity; this will allow ODH to expand the number of exam rooms and therefore the number of people they serve. ODH will obtain supplemental funding for the building acquisition and renovations from clinical operations, private philanthropy, grants, and private financing to pay for the remainder of our building expenses. RIDOH will execute a subaward agreement for this funding that stipulates that the funding is contingent upon proof of total project funding being secured. |

| Project Description | "The General Assembly has appropriated \$8 million to "support the construction of a 25-bed short stay unit at Butler Hospital to provide behavioral health care services, crisis intervention and other related services." The 25-bed short stay unit will allow for patients with mental health needs to seek treatment at the new facility instead of overcrowded emergency departments at local hospitals. The provision of the 25-bed short stay unit will place individuals seeking mental health treatment into a therapeutic treatment environment where treatment can be initiated. The unit will be designed to accommodate multiple distinct patient populations achieved through flexible pod systems to ensure that access to care isn't impacted by physical space limitations. Examples include the ability to flex up or down adolescent beds, isolation rooms, and varied adult populations. There will be (3) bids for each scope of work to ensure competitive pricing for the project. The goal is to open the Short Stay Unit by January 31st, 2024." |

| | Air travel to Rhode Island TF Green International Airport was heavily affected by the Covid 19 Pandemic decreasing airplane load factor by as much 77%. Air Travel is on an upward trajectory however business travel remains sluggish affecting overall visitation by comparison to pre-pandemic analysis. Shoulder and off-season travel are traditionally driven by business travel and a marketing investment targeted at the leisure market is necessary to offset the effect of current travel trends. Rhode Island Commerce in cooperation with the Rhode Island Airport Corporation (RIAC) and partner airlines will target key gateway cities during 2023 and 2024 that service the Providence market with a targeted campaigned focused on driving leisure travel to Rhode Island in the shoulder and off season. Key gateway cities include, but are not limited to, Los Angeles, Chicago, Washington D.C., Baltimore, and Detroit. Rhode Island Commerce would like to request a full year to spend and match the \$1.5M. Currently, we are five months into FY23 and have not received approval to spend the allocated funds. This would assist with allowing proper time |

Project Description

to strategically place the dollars in various markets and maximize the marketing results. A combined total of \$3 Million dollars will be divided over two quarters of 2023, full year 2024, and two quarters of 2025. Rhode Island Commerce will match the \$1.5 million investment (FY23, FY24, and part of FY25) provided by APRA funding and invest in the following distribution.

• \$560K will be invested in maintaining of existing air service programs and launch of advertising in new markets. Integrated consumer campaigns that drive interest to Rhode Island that support existing air service, in addition to targeted campaigns in new gateway DMA's where new direct service has been added. Example: Out of Home and digital advertising in addition to Social, PR, digital and events strategy in existing and new markets.

• \$1,108K Will be investing in New England Sports media buys that will encourage fan travel to professional sporting events and travel through RI TF Green International. Example: purchasing commercial spots that will air, during broadcast of New England away games.

• \$1.0M dedicated to In-market experiential events and insulations in high visibility locations that create top of mind destination impressions. Installations could include in market augmented experiences or oversized banners for Instagramable moments. Experiential events and installations could occur in high traffic malls, major downtown areas, or inside in market airports. • \$160K to support Hotel Month a lodging value campaign that encourages travel during January when lodging occupancy is at its lowest statewide. Hotel month is a statewide promotional effort that encourages hotel suppliers to offer their best rate under the umbrella event branded 'Hotel month". Example: Commerce creates a national integrated campaign that includes digital, social, PR and out of home adverting in the drive market that encourages consumers to get away for less in the off season. The marketing of the Hotel Month is done at no cost to the hotel partners. Hotel Occupancy will be monitored and compared with pre-pandemic data to provided program KPI's monthly during the campaign.

• \$171K Agency fees for the creation and execution of the campaign and marketing assets. (Programs outlined in FY24 and FY25 may change based on prior year marketing initiative results).

Commerce will be applying the \$3M hotel tax match such as print publications, TV advertorials, social media marketing campaigns, sports media marketing, hotel month campaign, advertising of new airport markets, experiential events and installations, agency fees and potentially different expense items but within the same categories that constitute as destination marketing. All targeted campaigns are statically designed to target visitors that are available and capable to travel. This dedicated funding will support the creation of visual and technical assets from conception to implementation that are executed on by the advertising agency on behalf of Rhode Island Commerce. Example: Commerce's agency of record will design a digital ad for the fly market with specific messaging and visuals that comply with platform's specification. Ad is strategically

| | Presently, the state is in substantial need of expanded, intensive residential treatment capacity that can successfully care for and treat adolescent females who face some of the most severe and complex behavioral health challenges of any youth in the state. Many of these adolescent females have histories of chronic trauma, complex psychiatric conditions, self-injurious and assaultive behavior, suicidality, property destruction, elopement, being the victim of sex trafficking and sexual assault, and multiple placements in lower levels of care. Because of a longstanding shortage of available in-state, intensive residential treatment options for these youths, a |

number of youths have been "stuck" in psychiatric hospitals for prolonged periods at enormous cost to the state and harm to the youth. DCYF has consistently seen 10-12 adolescent females who are in a psychiatric hospital at any point in time and could step down to a PRTF-level of care if a bed were available. At the same time, due to a lack of appropriate in-state options, DCYF must place youths out-of-state, where it can be difficult or impossible for family to see a youth and where crucial work to help youths transition back to living with their families and in their communities cannot be done.

DCYF proposes to increase critical, in-state psychiatric residential treatment facility (PRTF) capacity for female adolescents by adding facility space for twelve new PRTF beds on the campus of the state's only existing PRTF provider. This proposal encompasses the construction of one, possibly two new building, with bedroom, bathroom, recreational/lounge, office, family visitation and clinical space, as well as necessary campus renovations to outdoor space, school facilities, kitchen and dining facilities, recreational areas, and campus security. Construction of two six-bed facilities would be more in line with the current buildings it presently has on its seven-acre property, though the contract allows for a single twelve-building. Within the new and renovated space, PRTF services will be delivered that include 24/7 intensive, psychiatric care; nursing; individual, group and family therapy; and additional therapeutic activities and behavioral health interventions. The youth to staff ratio will be very low with continuous treatment planning and delivery that is overseen by a psychiatrist and conducted by multi-disciplinary clinical teams. The youth who will receive treatment at the facility are at serious risk of harming themselves or others, and so the site will need good sight lines, shatter proof windows, little opportunity for jumping from higher heights, no ligature risks and controlled or monitored forms of egress.

On January 13, 2023, DCYF executed a contract with the only existing PRTF provider in the state for a maximum of 11 million dollars. Under this contract, the provider has agreed to design and construct its new facility and renovate common spaces by October 2024. The provider has also agreed to operate the new facility as a PRTF for ten years following securing of its PRTF certification, a period which DCYF anticipates will be November 2024 through November 2034.

The provider will manage, plan, design, build, furnish, and own the new facility. It will furnish a Program Manager and ensure administrative support to oversee the day-to-day design and construction work. Throughout the project, the provider and DCYF will maintain communication through monthly meetings, meeting minutes, monthly reports, and budget and schedule updates so that DCYF and the state remain apprised of project progress.

Work on this project will include all architectural, civil and structural, environmental, plumbing, mechanical, electrical, life safety, telephone and data, and testing and inspection services to provide code-compliant residential and classroom

| facilities. The new residence(s) will include all spaces necessary to support the PRTF, including bedrooms, bathrooms, office(s), therapy, sensory room(s), common area(s), a kitchen, a dining area, laundry services, and janitorial and mechanical/electrical functions. Renovations to the school will provide classroom, office and administrative capacity for the twelve (12) additional students. The provider may also renovate other shared spaces. |
|--|
| The provider has agreed to complete design and construction of the facility and all renovations to the shared campus spaces within twenty-two months of signing the contract. It anticipates the planning and design phase of the project to take approximately eight months. Once the planning and design is complete, the provider anticipates an additional three months to complete cost estimation, construction subcontractor biding and selection, permitting, and mobilization for construction. DCYF expects construction to last for eleven months, with a Certificate of Occupancy planned for early October 2024 and any final turnover and site restoration to follow. DCYF anticipates the provider will receive its certificate to operate as a PRTF within a month of its Certificate of Occupancy, from which point the provider is contractually bound to operate the facility as a PRTF for ten years. |
| The contract has been signed, and upon completion of the Purchase Order requirements and issuance, a disbursement of funds is scheduled in accordance with the budget form. The monthly disbursements are grouped by quarter and bundled into the following three categories; Administrative Costs, A&E/Operating Costs, and Construction. Payments will be made in accordance with this schedule and conclude in the 2nd Quarter of 2025. A descriptive invoice will be provided by St. Mary's for the services to be provided for the prospective month, with a review of project completion in order to track progress of the project. |

| | This project will add funds to the RI-TEACH scholarship project, and compliment other Rhode Island initiatives designed to support child care businesses to implement best business practices, reduce staff turnover, onboard new staff, reopen classrooms, and continue to provide high quality |

| | early care and education across Rhode Island. RI-TEACH has a proven track record of supporting the incumbent workforce by funding their credential attainment and, in turn, increasing earnings and reducing the high rate of staff turnover. T.E.A.C.H. provides an opportunity to access a higher education curriculum that focuses on the academic, social, and cognitive skills that develop in children from birth through school-age and beyond. |
|---------------------|--|
| Project Description | This unique scholarship program may help child care workers advance their career and role in the profession by pursuing a degree and higher education opportunities in the field of early childhood education. Additional funding will support research and development of new RI-TEACH models tailored to meet the needs of the provider and scholar. Currently there are 5 TEACH model pathways: Associates Degree; Bachelor's Degree; Child Development Associate national certification; a 24-credit pathway through Each scholarship model will continue to implement wraparound services and incentives for both programs and scholar recipients; added funding will allow the program to expand options and incentives and increase enrollment. In turn, programs will leverage TEACH scholarships to attract new staff, reopen classrooms and continue to engage in continuous quality improvement. |

| | The Child Care Quality Improvements project will increase staffing capacity at the Rhode Island Association for Education of Young Children (RIAEYC) to focus on improving the Environmental Rating Scale (ERS) scores for childcare providers in the state. ERS scores are directly tied to improved quality interactions and environment for children, while also increasing reimbursement rates for participating programs. The project will add three contracted positions (two navigators and one assessment staff) within RIAEYC to be able to enroll 150 new participants into the LearnERS cohort. LearnERS is a series of modules and professional development for educators to address quality improvement within the lens of the classroom learning environment. |
| Project Description | The project will also provide additional operating support to RIAEYC. The operating support will include additional licenses for LearnERS software, stipends to enrolled |

| childcare staff to incentivize participation, materials early learning educators need to meet ERS evaluations, travel costs for the navigators, and consultants to administer ERS assessments. Using the LearnERS model and a similar model developed by BrightStars for School Age programs, participating providers will be selected to join cohorts of 10-12 participants who have identified the same areas of improvement through a low-stakes ERS preassessment. |

| This project will work in concert with the other childcare investments, such as tailored technical assistance for early learning programs to increase BrightStars ratings and data system and workforce development initiatives, to maximize the targeted technical assistance and financial support available to all providers. |

| | Adult Rhode Islanders with foundational skills gaps (e.g. no high school credential, skills below 12th grade level, and/or limited English Proficiency) are at a disadvantage in the job market. Adult Education nonprofits serve these unemployed and underemployed populations as defined by US Treasury. The UST defines unemployed and underemployed people as "individuals who want and are available for work, including those who have looked for work sometime in the past 12 months or who are employed part time but who want and are available for full-time work." Treasury is making clear that recipients may provide job training or other enumerated types of assistance to individuals that are currently employed but are seeking to move to a job that provides better opportunities for economic advancement, such as higher wages or more opportunities for career advancement. These Rhode Islanders were impacted by the Covid-19 pandemic due to precarious positioning in the entry levels of the job market; they were either among the first laid off because of an inability to work remotely, or they continued to do critica frontline work at high risk to their own health as essential workers. These same adults will be left behind by the Ocean State's post pandemic recovery without interventions designed to meet them where they are and support them in developing the academic and workforce skills required to access family-sustaining wages. Within three years, more than 80% of jobs in the US will require some education beyond high |

Project Description

school, according to the Coalition on Adult Basic Education. The state's Adult Education network has the expertise and services to support lower-skilled Rhode Islanders in making progress on their college and career goals.

Like other educational systems, continuity of quality educational services for adults in RI was disrupted by the pandemic due to:

Lack of awareness of availability of services
Limited infrastructure to support online service delivery and integration of digital literacy skill development into instruction

- Decreased access to services with in-person pandemic protocols and limited online services

The US Treasury SLFRF final rule included assistance to unemployed workers as an enumerated eligible use, including "services like job training to accelerate rehiring of unemployed workers." Further guidance also provided that "combined education and on-the-job training programs, or job training to accelerate rehiring or address negative economic or public health impacts experienced due to a worker's occupation or level of training" are all enumerated eligible uses as assistance to unemployed or underemployed workers.

RI's publicly funded network of 19 Adult Education providers delivers a broad array of high-quality services that support adults in reaching their diverse college and career goals, including high school equivalency preparation, English for Speakers of Other Languages, digital literacy skills development, and workforce preparation and training, including Integrated Education and Training (IET). IET is a nationally recognized workforce development model shown to accelerate successful completion of sectoral job training by adults with foundational skill gaps.

Specifically, SFRF investment in RI's Adult Education network will fund:

• Temporary increased capacity of RIDE to oversee implementation, ongoing evaluation, and strategic planning of the project.

• Third-party evaluation to identify service gaps and ensure regional equity.

• Third-party marketing and outreach campaign in multiple languages.

- Including incentives for participant engagement in

continuous improvement and outcomes capture efforts.Direct Grants for the creation of regional hubs to

streamline access to services statewide and facilitate knowledge transfer.

• Direct Grants for the purchase of devices and software to support integration of digital literacy and use of eTests statewide.

- Including the development of system resources to support integration of digital literacy skills into all instruction.

- This is a needs-based grant.

• Direct Grants for the expansion of Adult Education services statewide.

- Including hiring more teaching professionals, offering more classes, and providing more student resources like

| Sectoral Job Training Program stipends. |

| The 19 non-profit Adult Education providers in Rhode Island will apply for these direct grants. RIDE will review proposals and award grants. Outcome and participant data will be collected monthly and quarterly for reporting. |

| | BHDDH will award \$2.2 million to Thundermist Health Center to expand the Crisis Intervention Training (CIT) program, in partnership with local and regional steering committees and lead planners. CIT is an evidence-based program aimed at training, educating, and building networks for law enforcement, mental health providers, hospitals, etc. to better respond to behavioral health needs of the community. The program has a particular focus on training selected sworn officers across the state. The expansion will provide up to 24 training academies, technical assistance to police departments to develop "mental health call" response strategies and protocols, create workflows for 911 and local department dispatch to ensure that CIT trained officers are being dispatched to appropriate calls. Program development will be ensured through partnerships with people with lived experience, mental health and substance use organizations, and municipal leaders. The CIT program will have policies and trainings that are trauma informed, recovery centered, and sustainably funded. |
| Project Description | The current project includes the execution of: (1) 24 CIT training academies and several specialized training academies to train a minimum of 700 police, first responders, behavioral health providers, and advocacy/peers (2) monthly technical assistance to all 4 regional CIT programs including policy development, data specifications, dispatch workflows and protocols, and (3) a quarterly statewide Community of Practice (COP) for new and emerging CIT programs. Thundermist will hire regional coordinators and collaborate with different universities in th state to research the following outcomes: (1) behavioral and culture changes among police and police departments, (2) diversion of consumers from criminal justice to treatment, (3) reductions in consumer and officer injury, (4) decreases |

| Project Description | Rhode Island Black Business Association (RIBBA) is a non-profit organization dedicated to advancing the business opportunities and vitality of Black-owned and minority businesses in Rhode Island. Through the impact of the pandemic, Black and Latino businesses have been hit the hardest and deserve a triage approach when it comes to providing relief and support to build capacity. According to a report by the US House Committee on Small Business: "In 2020, Black business ownership rates dropped 41% between February and April 2020, the largest rate of any racial group." RIBBA provides a vast array of business development services to our community including: technical assistance, access to contracts, loan programs, business coaching and mentorship, workshops, and leadership opportunities. The funds from this grant will be used to support the Minority Business Hub, a co-working space for our clients, members, and partners. The build-out of the space will better serve our unique needs, program and operation expenses, consulting services, workshops, and supplies. Additionally, funds will help support our Small Business Program, RIBBA's premier outreach program to help small businesses scale, by increasing the capacity of the program team. The Small Business Program team and the new co-working space will be critical roles of the team members. In the new Minority Business Hub, the funds from this grant will help to build out our co-working center, providing access to workspace & Wi-Fi, private offices, conference/zoom rooms, meeting spaces for RIBBA clients and other organizations, and community outreach services. These tools are essential to small and micro businesse' success. The Minority Business Hub co-working area offers enough space to realize this vision. A 2015 study by the Harvard Business Review shows that employees thrive in co-working settings. According to the report, employees in |

| | The Office of Energy Resources' (OER) Clean Heat Rhode Island project is aimed at stimulating the market for high-efficiency electric heat pumps by providing financial incentives to make this efficient heating and cooling technology more accessible and affordable. |
| | There will be three categories of heat pump rebates: residential, residential income-eligible, and community/commercial. A third-party program administrator (Abode Energy Management) is managing and overseeing all aspects of funding deployment and reporting, at the direction of the OER. Abode Energy Management is using the following sub-vendors to carry out various program functions: InClime, Inc. (rebate application and processing, and data collection); EnColor Consulting and Katharine Garth (outreach strategies and customer communications); and Building Evolution Corp. (outreach for community incentive). |
| Project Description | Abode is leveraging InClime's experience to develop a website for heat pump customers, who are walked through the rebate application process in a style akin to TurboTax products asking only relevant questions. The portal will streamline application review and rebate approvals and allow for the rapid distribution of funds. Application submission and review is customized to disallow or flag out-of-parameter requirements for heat pump standards, residency, income standards, etc. |
| | Abode will operate a call center and quote comparison tool to assist customers in understanding and comparing heat pump quotes and ensure that the equipment being |

recommended for installation meets the needs of their property. It will also conduct post-installation inspections of commercial installations to better assess baseline heating and cooling efficiency assumptions and to determine whether continued operation of the existing equipment is possible, which could necessitate recalculating projected energy savings.

To be eligible for funding, bridges must be on a local public way and on the State Bridge Inventory. The funding will be distributed in the following way: 1) \$5 million will be equally divided among the 39 municipalities (\$128,205 each) 2) The remaining \$15,000,000 will be divided proportionately based on municipalities' share of non-federal lane miles (see accompanying table) |
| Project Description | The municipalities must submit applications to the Rhode Island Department of Transportation (RIDOT) by October 15, 2023. Total awards will be made available to municipalities by December 15, 2023; however, project approvals will be made on a rolling basis before December 15th. Any residual program funding not obligated by municipalities by July 31, 2024 will be allocated to RIDOT for statewide paving projects. |

| Current Period Expenditures | \$1,137,210.48 |
| Project Description | Fresh Start is designed to provide working adult Rhode Islanders with tuition/fee scholarships and books allowance for up to one year to help finish what they started. Specifically, the program will support adult Rhode Islanders who previously attended CCRI but have not earned a degree. Fresh Start will also target adult Rhode Islanders that have dropped out of CCRI and are not meeting federal Satisfactory Academic Progress requirements, which makes them ineligible for federal financial assistance. Fresh Start will also support any incidental basic needs and outstanding balances through a partnership with RI Reconnect. The combined effort will provide adult Rhode Islanders with the direct wrap-around supports needed for a "fresh start" to complete their degree. CCRI estimates 1,350 students will participate in the Fresh Start program. Not all of these participants will receive Fresh Start scholarships because they will be eligible for Pell Grants and other financial aid that will be awarded before these funds. The Community College anticipates that it will provide scholarship funding for approximately 812 unique students. It is assumed students will average eight credits per semester, with a persistence rate of 70%. Depending on the award date scholarships may extend beyond the proposed budget. |

| Project Description | "The Rhode Island Community Food Bank will use awarded funding to purchase food to distribute to our member agencies. The food is then distributed to people throughout the state who are food insecure. The Food Bank's member agencies are located in 32 of the state's 39 cities and towns. This coverage ensures that no matter where someone lives in the state, they can access food assistance close by to where they live. The food purchased will be made available each month to an average of 24,000 households comprised of about 80,000 individuals. Based on RI Community Food Banks's 2019 Hunger Study, the total percent of households served with children was 74.2% and the percent with elderly residents was 69%. Among all households, 75% received SNAP benefits. The following are the percent of households with at least 1 person identifying as white (60.3%), black/African (21.0%), Hispanic/Latinx (27.8%), Native American/Alaskan Native (5.2%). All of these data points will be updated in September 2023 with our newest study." |

In the latest America After 3pm report by the Afterschool Alliance, published in 2020, for every one Rhode Island student in an out of school program, there are three waiting to get in. The COVID-19 pandemic widened and exasperated the need and demand for quality out of school programs in the state of Rhode Island. These programs support learning and engagement during the school day, and provide economic relief for families who need, and rely on, consistent care for their children when school is not in session. SFRF funding would continue the investment in the Advancing Learning Beyond the 180-Day School Year program in support of Governor Daniel J. McKee's Learn365RI initiative, with the long-term goals of improving student learning outcomes and increasing three key metrics: * Rhode Island Comprehensive Assessment System (RICAS) mathematics and English Language Arts scores * School Attendance Rates * Free Application for Federal Student Aid (FAFSA) completion rates. Specifically, the Out of School Time Education Providers funding would support: * Direct grants to Learn365RI compact municipalities, including o Roughly 29 standard grants in the amount of \$40,000 and o Roughly 9 expanded grants up to \$400,000. * Temporary increased capacity of RIDE to oversee implementation, ongoing evaluation, reporting, and strategic planning of the project. * Third-party professional development in quality after school program delivery and management to municipalities and their out-of-school time providers / partners. |

| Project Description | The Rhode Island College Institute for Cybersecurity & Emerging Technologies will engage the greater regional and national cybersecurity community to deepen the institution's alignment to the field and expand Rhode Island College's ability to deliver education and workforce training through short-term, baccalaureate, and master's level programs at the College. The Institute will focus on research and developing highly skilled cybersecurity professionals. The primary focus of the Institute will be on cybersecurity. The Institute may extend its efforts to support emerging technology development in other fields, such as Information Technology and Life Sciences. The Institute will reside within the College's School of Business. The Institute's initial goals will include (1) establishing a cohort of students for Fall 2023 and in Spring 2024 the Institute will host a symposium and establish a 10-year vision for the Institute. (2) Develop and publish a strategic plan to expand cybersecurity and the Institute's impact on the New England and National Cybersecurity workforce. The expectation is that the Institute will position Rhode Island to lead the region in developing highly-skilled cybersecurity professionals and programming while attracting leading researchers and education professionals to develop practical and policy approaches to current cybersecurity challenges. The Institute will provide students with the knowledge, skills, and tools to protect and secure sensitive information from cyber threats or attacks. It will also create new pathways of opportunity for Rhode Island students while putting the State at the forefront of advancing workforce development and research in cybersecurity. The initial budget provides the primary resources needed to support the establishment and launch of the Institute. The three-year budget proposal total is \$4,059,478. \$2,060,078 funded by Rhode Island College and \$1,999,400 funded by the State through the State Fiscal Recovery Fund (SFRF). |

| | "The Rhode Island Rebounds Energy Efficiency Program will fund select eligible items to assist businesses in improving energy efficiency. Small business owners that |

| Project Description | request a comprehensive, no-cost energy assessment of their business will be eligible to participate in this program. These are pre-existing assessments available to small businesses today by specialists through organizations such as RISE Engineering. Upon completion of the assessment, businesses receive a list of energy efficient measures they may implement to lower their energy costs and improve energy efficiency at their facilities. Commerce will make an online application available that will be similar to the applications for the RI Rebounds Take It Outside and Ventilation programs. Applicants will upload their energy efficiency assessment with the application. RI Commerce will review applications and pre-approve businesses for up to \$10,000 in reimbursement for eligible costs (note: not every type of improvement included in an energy efficiency assessment will be eligible for reimbursement). After pre-approval, businesses will be notified of their eligibility. Business will provide documentation showing the energy efficiency projects were completed to receive reimbursement. Project Timeline: • Dates application opens: January 8, 2024 • Dates application closes: March or April depending on volume • Commerce approval timeline: 1 week from the time the application is submitted (if the application is complete and all documents are provided) • Deadlines for reimbursement requests: June 15, 2024 • Commerce completes reimbursement requests and closes out program: June 30, 2024" |

| Project Description | "Early Intervention (EI) providers require fiscal recovery to effectively outreach, engage and serve an anticipated influx of children and families to return to pre-pandemic referral rates. EI providers need to hire professionals to stabilize their staffing to at least calendar year (CY) 2019 numbers, implement intensive and enhanced family outreach activities, and maintain service consistency for families. Stabilization funds are divided into direct grants to each of the nine EI programs based on child count census. These funds are to help with increased cost of service delivery and the historically low reimbursement rates under Medicaid that have not kept up with cost of living and providing these services to our beneficiaries. Eligible uses include but are not limited to: enhanced outreach activities to ensure equitable access and family engagement in EI services; retention bonuses to maintain current staff; workforce costs due to increased current labor market conditions; professional development activities; and costs required to increase in-person visiting. The pay-for-performance are divided in the same manner, but paid out over time. A total of \$5.8M in Pay for Performance allocation will provide an opportunity for EI providers to earn bonuses based on targets to ensure that the stabilization has resulted in an increase in referrals, improved family engagement, stabilized staffing, and improved service delivery." |

| Project Description | "This Pediatric Provider Relief and Recovery project builT on the successful CARES Act funded Pediatric Relief Programs addresses the critical gap in preventative care that is harming children in Rhode Island, particularly publicly insured children. The Executive Office of Health and Human Services (EOHHS) implemented the Pediatric Provider Relief and Recovery project to provide financial incentives to pediatric primary care practices. The financial incentives were designed to ensure all children are up to date with the full array of essential, preventive healthcare services, including developmental, psychosocial, and behavioral screenings, by overcoming COVID-19 related barriers to access. The outcomes for the project are being measured by tracking well-visits, screening rates, and participation in technical assistance." |

| Project Description | The project will allow for the hiring of a statewide broadband coordinator, building the broadband maps needed to complete the necessary strategic planning, and completing a statewide broadband strategic plan to guide work in upcoming fiscal years. These three foundational elements are necessary to unlock and utilize additional federal funding being designated for broadband. The State needs a clearly articulated strategic plan and a five-year implementation plan that is developed in partnership with and in consultation of other state and local stakeholders. These plans must be grounded in data and built from strong broadband access and planning maps. Rhode Island also needs an office and director who will oversee the effort, ensure compliance with various federal programs, and ensure the program meets the State's targeted goals and engages all relevant stakeholder groups. |

| Project Description | "On January 27, 2020, the balance of the Rhode Island Unemployment Insurance Trust Fund (UI Trust Fund) was \$525,914,299.58, and on August 1, 2022, the balance of the fund was \$258,207,660.37. The reduced UI Trust Fund balance due to the pandemic has had a substantial financial impact on RI businesses by moving the UI Tax Rate schedule up two levels, from schedule F to H, which has cost RI businesses approximately \$31,000,000 The state will deposit \$99,970,000 in SFRF funding to replenish the RI UI Trust Fund. The projected estimated fund balance in the RI UI Trust Fund on 09/30/22 is \$316,000,000. The balance must be \$394,625,000 to move UI rates down a tax rate schedule. An infusion of \$78,625,000 or greater of SFRF funding will move the UI tax rate schedule down from Schedule H to Schedule G. This tax schedule change will result in an estimated tax savings of \$10,713,030.41 to RI businesses." |

| Project Description | "The Pediatric Healthcare Recovery Phase II program will provide payments to pediatric and family practice primary care providers who serve Medicaid-covered children. The funds will create an incentive for providers to continue to improve access to primary care, focus on immunizations and screening rates for healthy physical, cognitive, and social-emotional development, and drive investment into pediatric primary care to support the staffing and infrastructure needed to rebound from COVID-19-related delays in care. Under this project, the Executive Office of Health and Human Services (EOHHS) will make stabilization and performance payments to providers. Stabilization payments will only require submission of the program application, inclusive of a practice improvement |

| | plan and commitment to participate in the program's technical assistance program. Performance payments will be contingent upon practices' performance on several vaccine and screening measures, including: the vaccines required to enter kindergarten; the vaccines required to enter 7th grade; and lead screening. A small portion of the funds will support implementation through a technical assistance contractor that will be tasked with supporting training and workflow redesign, data collection and reporting, and best practice sharing to aid providers in successfully improving performance, as well as evaluating practice performance." |

| Project Description | The level of financial losses incurred by Rhode Island's private, nonprofit hospitals is not sustainable and is impacting the hospitals' ability to provide services to patients and the communities they serve. To alleviate the financial hardship caused by the pandemic on Rhode Island's nonprofit hospitals, the Department of Administration will distribute grants to each nonprofit hospital based on the formula outlined by the General Assembly in the state fiscal year (SFY) 2023 appropriations act. The total amount of grants to be distributed is \$45 million. Each nonprofit hospital will receive a base payment of \$1 million plus a pro rata share of the remaining appropriation based on a given hospital's operating costs from its 2021 Medicare cost reports relative to the aggregate operating costs of all hospitals, both nonprofit and for profit, from all 2021 Medicare cost reports. (Note: two for-profit hospitals are captured in a separate SFRF project, 10044.) The Hospital Association of Rhode Island (HARI) will serve as a partner to distribute the funding and collect the information required. |
