This project was supported, in whole or in part, by federal award number SLFRP0136 awarded to the State of Rhode Island by the U.S. Department of Treasury.

Destination Marketing

<u>Project Identification Number</u>: 10056
<u>Pandemic Recovery Office Approval Date</u>: February 22, 2023
<u>Project Completion Date</u>: December 31, 2024
<u>Funded Amount</u>: \$3,000,000
<u>Expended Amount</u>: \$3,000,000
<u>Project Expenditure Category</u>: 6.1 Revenue Replacement: Provision of Government Services

<u>Problem Statement</u>: Air travel to Rhode Island T.F. Green International Airport was heavily affected by the pandemic, with the airplane load factor decreasing by as much as 77%.¹ While air travel was recovering overall, business travel, which traditionally drives off-season travel, remained sluggish during the recovery. Additional leisure travel marketing was necessary to offset the effect of travel trends.

<u>Project Overview</u>: The Rhode Island Commerce Corporation (Rhode Island Commerce), in cooperation with the Rhode Island Airport Corporation (RIAC) and partner airlines, targeted key gateway cities, including Los Angeles, Chicago, Washington, D.C., and Detroit, with a campaign promoting leisure travel to Rhode Island. The project was comprised of the following components:

- Integrated campaigns that spurred interest in Rhode Island, targeted at cities with air service to Rhode Island T.F. Green International Airport.
- New England sports media buys that encouraged fan travel to professional sporting events.
- In-market experiential events and installations in high-visibility locations that created topof-mind destination impressions.
- A lodging value campaign during January when lodging occupancy is at its lowest statewide.

Rhode Island Commerce matched the \$3 million in SFRF with its allocation of state hotel tax revenue to pay for additional marketing and advertisement campaigns that promoted Rhode Island as a destination for leisure travel. These additional funds supported the creation of visual and technical assets from conception to implementation.
