TAB 5: Projects

Section 5.1 – General Project Information

Project Name	East Smithfield Neighborhood Center Rehabilitation
Identification Number	20005
Subrecipient	Town of Smithfield

Project Description

The proposed project is the restoration of the East Smithfield Neighborhood Center (ESNC), a town-owned facility located in Smithfield's Esmond neighborhood. Renovations include structural repairs, and historic restoration of the main hall, new roof, new electrical, mechanical and plumbing systems, complete interior and exterior finishes, ADA bathrooms, new offices and high-speed internet. The renovated facility will support expanded COVID 19 related services to Town residents, while protecting the historic character of the building and neighborhood and, when completed will serve as the primary activity center for a multi-generational community learning center. The Town will partner through its Recreation Department and with Tri-County Community Action Agency, Smithfield YMCA, Boys and Girls Club of Northern RI, Smithfield and Smithfield Fire Department and Smithfield Emergency Management Agency to provide a range of services including adult education and job placement services, community paramedicine and youth after-school programs. The ESNC will provide a conference room, restrooms, kitchenette, community space, office space, mobile computer lab and a mini health clinic. The renovated building will provide all the necessary facilities to enable education, work and health monitoring.

Section 5.1 – General Project Information

Project Name	Bay Spring Community Learning Center
Identification Number	20001
Subrecipient	Town of Barrington
Project Description	<p>The project involves the renovation of the first floor of the Bay Spring Community Center and a small addition to the rear of the building to provide additional space for programs consistent with the Community Learning Center grant requirements. The former garage bay will be converted to a meeting/presentation room, with a reception area and a small office for use by the public. ADA accessibility will be met through construction of a ramp on the front of the building to the new main door. An interior wall will be removed to provide better flow between the converted garage bay space and the existing office/kitchen area. Project requires plumbing, electrical, heating and cooling upgrades; structural reinforcement, removal of an old oil-fired furnace and oil tank, new lighting, etc. Also, a new key fob system and security camera system will be installed.</p>

Subrecipient	Town of Westerly
Project Description	<p>The Tower Street Community Center (TSCC) will be constructed on the site of a former elementary school. The school was closed and used as a community center, which subsequently closed in part as a result of the pandemic. The existing building fell into disrepair and would be cost prohibitive to rehabilitate and renovate for safe use. The newly constructed TSCC will provide much needed primary care, dental, mental health care and publicly accessible health monitoring through Wood River Health. Workforce training, multigenerational educational opportunities and job fairs through the Westerly Education Center will be on site. Indoor and outdoor recreation will also be offered at the center. Additionally, common areas, flex work space and multiuse rooms will be available for public use for such things as telehealth visits, virtual job interviews, free Wi-Fi access and smaller non-profit organization use.</p>

Project Name	Coventry Community Learning Center
Identification Number	20018
Subrecipient	Town of Coventry
	<p>The Coventry Community Learning Center is focused on revitalizing unused space for programming that reflects our community's unmet needs around workforce development, education and health monitoring. Remaining holistically-focused on inclusion, equity and community-wide voice remain our goals throughout the project timeline and beyond. Service provision will be based on equitable outcomes in the following ways; 1) Outreach and advertisement among marginalized communities will continue throughout the process as we work closely with the Coventry Housing Authority, Coventry School District in the development of our Parent Resource Center to aid in children's successful outcomes in education. Veterans Services, Elders and individuals with disabilities. 2) ADA and other accessibility accommodations will remain a focus of our project to maximize community membership and voice. The Town of Coventry Project FRIENDS Program, a vocational and clinical program, for adults with developmental disabilities which has been part of our town for the past 34 years will expand their ability to provide vocational assessments and work</p>

Project Description

supports for those in our community with disabilities. The renovations to this space will be fully ADA compliant and we will serve as a hub for workforce development as we work closely with the Transition Program at the Coventry High School to provide training, job supports and job development in conjunction with the Rhode Island Office of Rehabilitative Services. This is a strong focus for the State of Rhode Island to assist transition-aged individuals to become employed and fully participate in their own communities. Job training opportunities will expand to those marginalized individuals in our community who will need a bridge of support to be gainfully employed and improve their quality of life. 3) Expanding hours of operations to evenings, when necessary, based on community need will be evolving over time and we will adjust our hours to meet the needs of our community members. This will include access to transportation as we expand our use of handicapped accessible vans to bring individuals to this location to fully participate and gain the benefits around health monitoring, education and workforce development. The goal is to build a broad, usable known resource that caters to the unique needs of the Coventry community. 4) Respecting diversity in cultural, language, sexual identity and orientation and overall individual differences to minimize barriers and maximize access is at the forefront of our outreach and

	integrative model. Promotion in multiple languages as necessary to increase the voice and choice of our community members so there is an ownership of services that reflect the make-up of our community.

Project Name	Davey Lopes Recreation Center
Identification Number	20015
Subrecipient	City of Providence
	<p>The Davey Lopes Recreation Center is located in the heart of Upper South Providence, serving a densely populated community with high rates of unemployment and poverty. The Recreation Center is comprised of a main building and a large room attached by a hallway to the main building that was formerly used as an indoor pool facility. That 4,500-square-foot facility is still dominated by an empty pool well, which remains attached to the outdoor pool via plumbing. Until 2022, the space was used to host a boxing program, until repeated flooding from the outdoor pool caused the room to be vacated. Capital improvements to facility infrastructure systems (HVAC, electrical and plumbing upgrades, fire alarm, and protection) will further enable use of the space for programmatic purposes.</p> <p>By enabling public access to workforce, education and health outcomes programs, Davey Lopes Recreation Center will serve as a test-study for expanding the role and function of Providence Recreation Centers. The Davey Lopes team will need to survey current membership and the surrounding community to set regularly scheduled community access hours, determine new</p>

facility staffing models, and reexamine facility use policies to ensure access to multipurpose space, and computer lab. The opportunity to convert a flooded pool well into a multipurpose space makes Davey Lopes Recreation Center an ideal facility for this model, as the multipurpose space will be separated from the main building by a hallway and large enough to set up multiple classroom-style spaces with a simple divider. In this way, distinct programming can be offered within this space and the computer lab, while still not directly interfering with sports and recreation programming in other parts of the building. In addition to classroom-style spaces in the multipurpose space, grant funds will be allocated toward the renovation of the Davey Lopes computer lab. This room will offer computer workstations where members of the public can search city job boards and review virtual workforce development tools such as resume and cover letter templates. In addition to teen and adult education courses (see Education section), the facility will publicize and help refer individuals to Providence's American Job Center, expanding marketing for the menu of workforce

	development, continuing education, and career counseling options offered through the center.

Statement

I certify that the information provided is accurate and complete after reasonable inquiry of people, systems, and other information available to the CPF recipient. The undersigned acknowledges that any materially false, fictitious, fraudulent statement, or representation (or concealment or omission of a material fact) in this submission may be the subject of criminal prosecution under the False Statements Accountability Act of 1996, as amended, 18 USC 1001, and also may subject me and the CPF Recipient to civil penalties, damages, and administrative remedies for false claims or otherwise (including under 31 USC 3729 et seq.) The undersigned is an authorized representative of the CPF Recipient with authority to make the above certifications and representations on behalf of the CPF Recipient.

Records indicate that at least one of the program plans does not have at least one project attached. The system shows that the following program plans do not have projects attached: CPF_GP-000111. If the identified program plans are not supposed to have projects, please provide an explanation for any program plan missing a project about why this is the case. If this is incorrect, please return to the Projects screen and add additional projects.	Rhode Island's CPF_GP-000111 program plan is missing projects because no subawards have been awarded yet for the implementation of the program. An RFP for the CPF Broadband Infrastructure Deployment program has been posted and the responses have been evaluated. Contracts/ agreements are being drafted and are expected to be formalized in Q4 of CY2024.
